ORIGIN  
25X1X6 [REDACTED]

1. Large shipments of weapons and military clothing have been transported by truck through Mitrovica and Pristina toward Albania during the last few weeks of August and the first weeks of September. Many of the weapons were of German manufacture.
2. The textile plant at Grdelica received large orders for military goods which have been shipped to Albania and the Greek border.
3. Large shipments from a factory in Pancevo near Belgrade have arrived in Mitrovica where they are received by Greek and Albanian officials. The trade mark on the shqps is a red star.
4. During the first half of September, a number of troops (estimated at two or three weak divisions) moved southward through Pristina, Skoplje, and Tetovo. According to the officers, these units were to relieve the frontier guards but the soldiers themselves did not believe this. They were poorly equipped and wore no divisional insignia.
5. Russian-Yugoslav commissions have been surveying<sup>1</sup> Raska and Mitrovica. As the terrain is unsuitable for flying, it is assumed that the installations are to be for jet-propelled weapons. At present the work is confined to tunneling.
6. Anti-aircraft installations have been constructed near Skoplje presumably for an extensive training program. The airfield at Skoplje is intact and is prepared to receive three new Groups of aircraft, although they had not yet arrived by mid-September. On several different nights, specially equipped troops passed through Kicevo, Debar and Prilep. They were believed to be labor battalions of political prisoners since no one was permitted to come into contact with them. From orders which were overheard, it was assumed that they were Greek units quartered for some time in southern Serbia.
